U. S. Makes a Proposal Relative To Liquor Ships

Asks Right to Prevent Vessels Bringing Booze Within 3 Miles for Reciprocal Right to Search Within 12 Mile Limit.

Sharp Break Follows Small Advance in Wheat

By CHARLES D. MICHAELS.
(By Chicago Tribune Service.)

CHICAGO, June 14.—Local operations covered the action on the wheat market yesterday. The latter moved but poor response to either bullish or bearish news. A small advance early was followed by a sharp break but the latter there was no buying of which absorbed the surplus in the pit and an advance of 2c from the low point followed. September was sold as the July was bought and the difference widened to 2c at the last. Closing trades were 1-3/4-7-3 higher with July leading.

Corn and oats were under pressure early, with September oats dropping to a new low for the season, but both grains rallied later with wheat, corn finishing 1-3/4-8c higher and oats unchanged to 3-8c lower. Rye was off 3-8-3-8c at the close.

As a result of the action of the market the past few days in falling to hold advances or declines local operators are inclined to change their position quickly. Neither bullish or bearish news has had any lasting effect, but there was some change in sentiment noted toward the last with the belief expressed in some quarters that the market had turned and that the next important movement would be upward until the unexpected happens.

Houses with seaboard connections bought December and sold September toward the last. A good part of the trading of late has been in the way of spreading not only between the various deliveries here, but also between Chicago and the northwest. Government weekly weather report was mixed, but failed to show any serious damage in the southwest. Export demand is still very slow. Cutting is under way in Southern Oklahoma but is delayed again by rains in parts of Texas.

Corn declined 3-4-1 in the early trading with general commission house selling in small lots while the local element sold September and bought July. The latter acted a little tight toward the last and when wheat started upward it advanced 1-3-8c from the low and finished at the top, gaining 1-8c on the September for the day.

Trade in oats is largely of a local character, and the local speculative interest is the outstanding feature. Deliveries were in few low ground for the season and showed only a fractional rally from the bottom. Basis was off 1-4-1-2c with receipts 94 c.

Selling of a liberal sized line of July rye by a house with seaboard connections carried the price off 1-3-8c from the previous day's finish. Buying was mainly by local traders and wheat largely on the strength in wheat.

Principal Evans' Work Endorsed

Frank Talbot has returned from Ashland where he attended the annual meeting of the board of trustees of the Randolph Macon College system. Mr. Talbot, it was learned today, was one of the trustees who favored the removal of the college to Norfolk which proposal, however, did not meet with the approval of the majority. During the meeting reference was made to the work of Randolph Macon Institute in Danville and the record of Principal C. G. Evans was commended. Mr. Evans, who usually attends such meetings was not present at the meeting being held in Danville in connection with the installation of furniture in the new Main street church Sunday school quarters. During the meeting no discussion was had of plans to enlarge the local unit of the Randolph Macon system.

The board re-elected all of the members save one of the committee which supervises the Randolph Macon Institute's conduct. Rev. J. N. Latham, now of Richmond, was succeeded by J. Lee Davis of Richmond. The other members of the committee are James T. Catlin, Danville; Rev. R. F. Lipscomb, Lynchburg; Walter Pettyjohn, Lynchburg and Frank Talbot, Danville.

Consider Printing "Ads" On Income Tax Forms

LONDON, June 14.—Chill penury means many a noble age, but in the case of the heads of the various government departments of England, it has brought forth a decided show of genius in the art of raising and saving money. It is now proposed by the chancellor of the exchequer to sell the income tax forms and other government papers for advertisement purposes.

It is claimed that about \$2,500,000 can be raised in this manner.

Virginia Farmer Can Make Cider Or Vinegar Without Fear Of Volstead

By GEORGE H. MANNING
(Special to The Bee.)

WASHINGTON, D. C., June 14.—The Virginia farmer who wishes to convert his apples into cider or vinegar this summer will have mighty little to fear from the Volstead law enforcement officials.

Satisfactory settlement of the prohibition problem as it relates to the manufacture of cider and vinegar on the farm and elsewhere is expected to be obtained as the result of regulations which have recently been drawn up by the Federal prohibition officials and are now awaiting the approval of the Secretary of the Treasury.

So far as the large commercial cider and vinegar interests of Virginia are concerned, it is not expected that there will be any material change in the major features of the regulations governing their activities. Such commercial production and sale will be under permit and bond, as heretofore.

Home production of cider and vinegar, however, is one of the most difficult questions with which the prohibition authorities have to deal. The very wording of the Volstead law is contradictory and confusing, and gives rise to much misunderstanding and misinterpretation. For, although intoxicants classified as intoxicating liquors, the main section of the law defining

all beverages containing one-half of one per cent of alcohol, another section exempts from the provisions of the law denatured alcohol, certain medicinal preparations, and "vinegar and preserved sweet cider." Which may mean almost anything.

All things considered, it is said to be the opinion of prohibition officials that "reason" is the best guide to use in enforcing the regulations of the dry law as it applies to farmers who use part of their orchard crops each fall to provide their families with cider, and store part of this through the winter for vinegar. While not caring to state before their approval of the new regulations provide, officials of the prohibition headquarters indicated that the farmer who immediately takes the sweet cider from the mill to his can house will not be molested in the enjoyment of the juice, nor will the possession of cider which is going through the intermediate hardening processes, a vinegar-making make him liable to arrest provided always that proper inspection and order is presented.

Anything resembling hard-cider deliveries, however, will not be countenanced and farmers whose homes become gathering places for friends whose use of their cider is such as to disturb the peace and security of the community will find themselves in trouble for maintaining places of bad fame.

A suit of half the fortune of Frank J. Gould, estimated at \$2,000,000, will be carried to the highest courts in France and the United States by Edith Kelly Gould, his former wife, according to an announcement made by her lawyers.

PREFERS AIRPLANE TO TAXI; TRAVELER THINKS IT'S SAFER

(Special to The Bee.)

LONDON, June 14.—Because he fears that railroad trains, trams, cars, automobiles and boats aren't safe enough, Lieutenant Wiley Coppens, an attaché at the Belgian embassy here, travels around in an airplane whenever it is possible.

He has crossed the English Channel more than 50 times, and has flown over most of Europe. He is more at home in the air than on land or sea. Among army men and aviators he is considered as one of the world's coolest and most daring air fighters.

During the war he brought down 40 enemy planes in flights over enemy lines. He fought a whole German squadron for five hours. He lost his leg in the encounter, but won his battle.

All told, he was wounded 13 times during the war. "I thought that that was going to be my unlucky number," he says. "But it wasn't."

It seems it was his lucky number, for later he went into action against Richthofen, ace of the German fliers. While flying low, the Belgian was attacked by his daring opponent. The machine was shot so badly that it started to drift helplessly toward the enemy. But somehow he righted the machine, turned it around and managed to steer it safely back to his own lines, and returned to his own camp.

His pet tank exploded and the machine went up in flames. But Coppens' lucky star was with him and he escaped.

"I rather ride in an airplane than a taxi," says Coppens.

LIEUTENANT WILEY COPPENS

Expansion Of Trading On the Stock Exchange

(By Chicago Tribune Service.)

NEW YORK, June 14.—Trading in the stock exchange expanded materially yesterday and much of the increased business consisted of dealings in New York Central shares. The directors of the company were scheduled to meet today to act on the dividend, but the meeting did not actually take place until an hour or so after the market opened and it was nearly another hour before it was announced that the expected higher dividend rate of 7 per cent had been determined upon. This period of suspense brought considerable unsettlement to stock values in both the industrial and railroad lists. New York Central itself dropped from the opening price of 101 to 94 1/2. It had rallied rather feebly when the action of the directors was made known. In a few transactions aggregating several thousand shares the price advanced from 101 to 104 1/2. The highest point touched subsequently being 104 1/2. Dealings piled up rapidly and 136,300 shares of the stock were turned over.

It closed at 103 1/2 for a net gain of 3 1/2.

More weak spots developed in the early afternoon, but trading showed a tendency to become dull on the reaction. Selling concentrated upon the steel and other heavy industries. United States Steel common sank to a new low for the year.

Oil issues were again under pressure with one or two exceptions like California Petroleum and Pan-American and Phillips at intervals. The Steels and Motors were down a fraction to a point or thereabouts. Woolworth shares were strong until it was announced that there was no intention on the part of the directors to declare an extra dividend. Most of the gain was cancelled after that. Among the former rails aside from New York Central were Atchafalpa, Erie, New Haven, Southern and Reading. In no section of that department was there any weakness in evidence.

Sugar stocks became acutely weak when the raw sugar market began to break. This added to the general unsettlement and brought weakness to industrial bonds. Leather stocks were under pressure because of new uncertainties in that industry.

Stocks were unsettled generally in the late trading but a slightly firmer note was sounded just before the closing. They were, however, materially below Tuesday's levels at the end. Steel sold at a new low price for the year at 94 1/2, subsequently rallying to 95.

Bond trading was quiet and fluctuations unimportant. Austria's "when issued" were still in good demand, ranging from 90 1/2 to 91 1/2. The new Panama 5 1/2 sold above 97. There was a fair demand for railroad bonds. In the curb market prices held steady at lower levels; trading was more active than recently. Pressure was directed mainly against the oil. Grains were steady to firm.

Cotton was reactionary due to heavy liquidation in July and October options.

Still easier conditions prevailed in the local money market. Very little was done in time funds or commercial paper, which remained unchanged. Call loans were renewed at 4 1/2 per cent, but subsequently the rate was marked down to 4 per cent. Business in the European exchange was featured by a new low point in marks at below the level of one cent for 1,000 marks. London sight drafts were fractionally down at \$4.61, francs 6.35, cents and guilders a point at 33.14 cents. Lire were unchanged. The only strong spot was Danish kroner, which advanced 28 points.

Sues for Millions

A suit of half the fortune of Frank J. Gould, estimated at \$2,000,000, will be carried to the highest courts in France and the United States by Edith Kelly Gould, his former wife, according to an announcement made by her lawyers.

NEW YORK, June 14.—Bank of England rate unchanged at 3 per cent.

Tide-water Oil Company, announces resumption of dividends will be deferred pending improvement in oil industry.

Buenos Aires City council France commission reports favorably on 167,000,000 peso loan at 5 1/2 bearing not over 6 1-2 per cent interest with one per cent amortization annually.

Car loadings for week ended June 2nd, 932,041, decrease of \$1,988 from previous week due to Memorial Day. Daily average loadings above previous week.

Packard Motors met after charges and tax for first eight months fiscal year approximates \$7,000,000. May net \$800,000. Company announces production of new "single 8" model.

Offering by syndicate of \$20,000,000 Illinois Tuesday or Wednesday.

Postum Cereal four months' ended April 30, net after federal taxes, etc., \$1,044,385.

International Great Northern Eleven months' ended November 30 last net available for interest, etc., \$1,326,638.

Issue of \$1,000,000 two-year 6 per cent gold notes of Salt Oil Company, offered at par an accrued interest.

A. J. G. Warner, president Warner Sugar Refs. Co., says Cuba will produce 4,000,000 tons for market by 1925.

Single Oil sold to syndicate \$25,000,000 first loan collector's office May 6 1-2-3 which are offered at 94 to yield 7 1-2 per cent.

Loadings on St. Paul first seven days June show increase of 17 1/2 per cent.

Lehigh Finds Method to Play Baseball in Peace

BETHLEHEM, Pa., June 14.—A solution of the problem of how to keep the "kids" quiet at baseball and lacrosse games has been found at Lehigh University.

The boys are put on their policy. Any Bethlehem boy who sees Lehigh games fired on, or who is in a section of the grounds and especially reserved, and goes to the place. They have a cheering section of their own and are led by a Lehigh student cheerleader. No longer do they disturb the play by "screaming" and shouting and shouting "kill the umpire." Nowadays they even have clean washed faces and hands.

Summer at Lehigh is a blessedly quiet time. Students are not in the city. The school is a peaceful place.

GERMAN STOCKS ADVANCE

(By The Associated Press.)

BERLIN, June 13.—Stock rose in unparalleled fashion on the bourse today when the exchange rate touched 100,000 marks to the dollar in an official trading. It was a common note to see ten million paper marks and more offered for shares with a face value of one thousand marks gold. Financial circles blame Germany's political outlook abroad as the chief factor in the new crash of the mark. Officially the dollar today ranged from 95.60 to 95.65.

Al Smith Off To Indiana To Play Golf and Think Things Over

CHICAGO, June 13.—(SUN) protestant that he is not a candidate for president, Governor Al Smith left tonight for French Lick, Ind., where he will spend the next ten days. He insists his time will be taken up with golf, but there will be ample time in the evening for conference with Democratic political leaders from Indiana, Ohio and neighboring States.

While the wets applauded the days were taking various things at him today, the New York executive played golf, attended two dinners and held many informal conferences. He also found time to visit the stock yards and witness the slaughter and dressing of hogs intended for the New York market. He evinced much interest in the entire process and enthusiastically ordered himself to the custody of "Chuck" Evans, who escorted him to the South Shore Country Club for a round of golf and a dinner.

Gov. Smith made it clear to all inquirers that he would not be the Democratic candidate for President unless he was dragged into the position. He takes a decided stand against the return of the saloon and favors government control of all distillation of alcoholic liquors. He favors enforcing the Eighteenth Amendment, but believes Congress should substitute for the Volstead Act, a law permitting a greater percentage of alcohol. Finally, he stands for a

tax on all alcoholic products, sufficient to bring in enormous revenue.

Senator William E. Borah, who is not averse to the line, set up a counter attraction at his hotel to offset the wet welcome given the New York governor. He says prohibition will not be the main issue in the next presidential campaign, but that the World Court will take front rank.

Beware of imitations. Demand the genuine in 10c and 35c packages bearing above trade mark.

Marshall Field Corp. Asked To Send Man Here

Henry T. Watkins, secretary of the Chamber of Commerce, has written a letter to the Marshall Field Corporation at Chicago asking that they send a representative to Danville to hear propositions relative to the establishment here of a retail shipping and receiving station for the corporation's textile plants in the nearby section. While no definite information has been given out here by the corporation, which is ready to be made it is understood that the chances of Danville winning the important connecting link between the textile plants are good.

The project was first broached about two weeks ago when a party of officials of the Chicago corporation and Southern railway officials passed through Danville on a tour of inspection. Since then the new enterprise committee of the Chamber of Commerce has been actively at work and now prepared to make a definite report.

Wyoming May Supply Utah With Natural Gas

SALT LAKE CITY, June 14.—Natural gas for Utah Lake City and Ogden from a newly discovered field in western Wyoming is being sought in western Wyoming. One well drilled recently is said to have a flow of 50,000 cubic feet of gas a day. A local expert points out a great deal of excess of what would be used by Salt Lake and Ogden even if natural gas replaced coal for a long time.

Manufactured gas in Salt Lake City is produced at about \$1.50 per thousand cubic feet, and a local expert points out a great deal of excess of what would be used by Salt Lake and Ogden even if natural gas replaced coal for a long time.

The new natural gas field in Wyoming is said to be practically inexhaustible and it is proposed to construct a pipeline to Salt Lake City.

Principal Evans' Work Endorsed

Several New England States Will Go Democrat

Such Fears Are Confessed by Republicans—Disaffection Is Rife.

(ARTHUR SEARS HENNING.)

(By Chicago Tribune Service.)

BOSTON, Mass., June 14.—Fears that the Democrats will carry Massachusetts, and possibly two or three other New England states, are confessed by numerous Republican leaders in this part of the country.

That disaffection is rife in the ranks of the Republican party in New England is frankly admitted with practical unanimity by the G. O. P. chieftains, who however, hold widely varying theories of the reasons therefor.

Some contend that the coal famine of last winter is at the bottom of the trouble. It is asserted that New England was unable to obtain an adequate supply of coal during the winter, and that suffering was widespread. The people, justly or unjustly, blamed Washington for their plight and resented President Harding's comment that the distress in New England was largely psychological.

Even now there is general complaint of inability to get coal at prices which remain high and dealers are unable to promise deliveries of next season's supply before next fall. There is much uneasiness that next winter may prove as calamitous as the last.

The evident discontent in the midst of a period of pronounced prosperity is puzzling the Republican leaders a good deal. Some think that reaction against prohibition accounts for much

of the disaffection, particularly in the larger cities. The Republicans are, however, pretty generally with one voice, while the Democrats are sounding the call to revolt against the Volstead act. The Democrat call sounds good to many wet Republicans. Republican leaders fear the result in a normally Republican, though wet state like Massachusetts if prohibition becomes a well defined issue next year.

The World Court proposal is worrying the Republican leaders the least of all the issues. Most of them are against it and feel sure that a majority of the Republicans of New England are against it. Of the New England organization heads only National Committee Chairman Kingsley of Vermont and State Chairman Frank H. Foss, of Massachusetts, are advocating the World Court plan. The people do not appear to be greatly interested in the matter and the public leaders are hoping that the question will be disposed of by the Senate before the presidential campaign opens. It is reported that 32 Republican senators are now committed to a reservation conditioning American adhesion on complete divorce of the court from the league of nations.

In Massachusetts the Republicans would be greatly relieved if they could find a candidate for senator capable of defeating Senator David I. Walsh (Democrat) next year. They confess it would be a difficult job to beat Walsh even under more favorable conditions. The great fear is that Walsh not only will be re-elected but will carry the state for the Democratic nominee for President at the same time.

Prohibition is bound to be a prominent issue in Massachusetts, if not nationally next year for on the ballot will be the question of approving the state prohibition enforcement law passed by the last legislature to replace the one voted down by the people last fall. The new law will be held in abeyance pending the referendum. There are no indications that the people of Massachusetts have changed their minds since they rejected the other dry law and the action of New York has encouraged the wets here distinctly.

Senator Walsh took the wet side of the argument and interest is now directed to the degree of moisture, if any, of the possible Republican candidate against him. The possibilities being discussed are Governor Cox, John Jacob Rogers, Congressman Clarence Edwards. It is generally assumed that Vice President Coolidge will be renominated, but, if he should not be, the Republicans might unite on Walsh as the candidate most likely to take the measure of Senator Walsh.

Continue Gains In Labor Employment

(By The Associated Press.)
WASHINGTON, June 14.—Continued gains in employment over the United States are shown in statistics, compiled by the department of labor, which reported that the demand for both common and skilled labor is far greater than the supply.

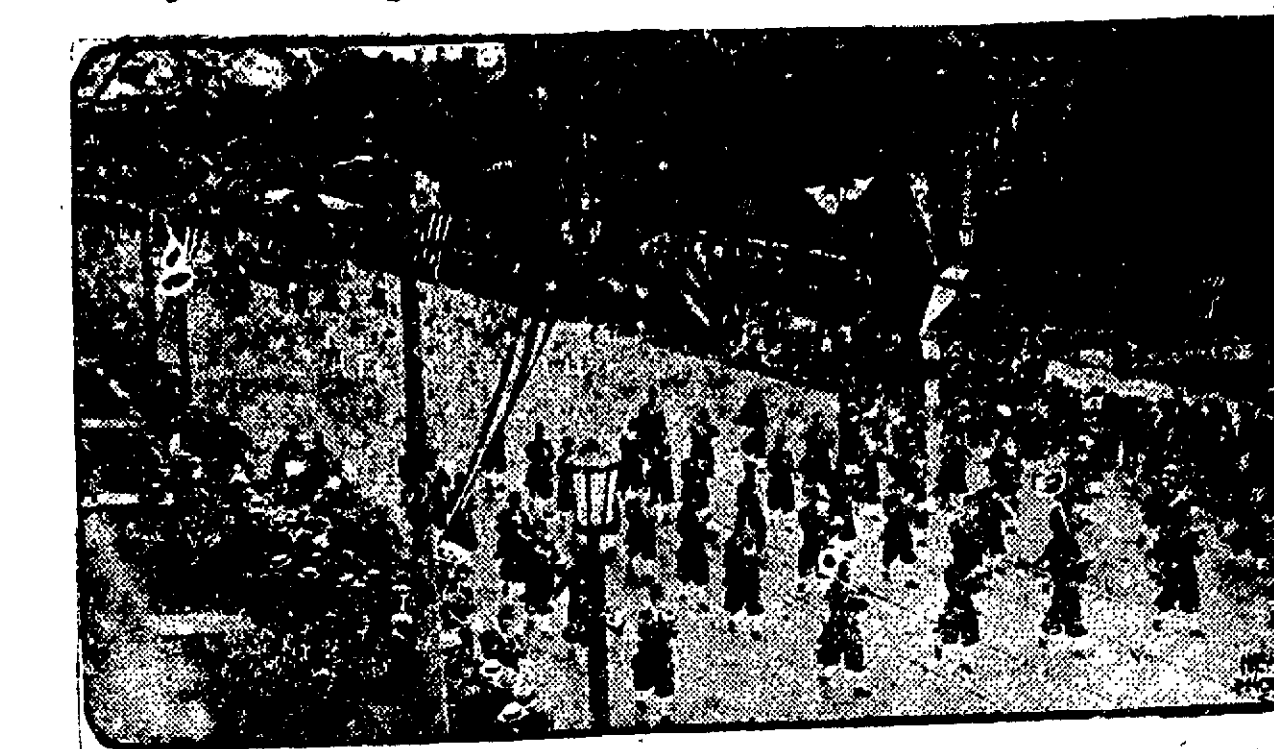

A survey of conditions during May disclosed that fewer men are now out of employment than at any previous time in the last twelve months. Employment gained in the cities and industries reported over April. Pronounced shortage of farm labor exists over every section, the figures disclose with resulting curtailment of activities. It is impossible for farmers to obtain enough labor to harvest the crops. Unprecedented migration of negro labor from the south has added to the hardship of farmers. Conditions in North Carolina were described as follows:

Employment in fertilizer mills, depressed due to usual curtailment in this industry at this time of year. Large road construction and building programs, ensuring employment to all available skilled labor and tradesmen in the state.

Would Expunge Motion To Bring Corner Into Suit

(By The Associated Press.)
LITTLE ROCK, June 14.—A motion asking expunction from the record of the motion filed in Circuit court here seeking to make J. A. Comer, Arkansas leader, a party to the \$100,000 defamation of character suit brought recently against the Ku Klux Klan, by H. W. Evans, Imperial wizard, was filed in Circuit court today.

Mystic Prophets Turn Cleveland Into Carnival

From all parts of the country, representing every state, approximately 60,000 members and friends of the Mystic Order of Veiled Prophets of the Enchanted Realm journeyed to Cleveland for the 34th annual convention of the Masonic grotoques. A huge parade took more than an hour to pass a given point on Euclid Avenue. Joseph's coat of many colors looked like a pair of last year's faded pajamas compared with the brilliant colors of the Prophets' uniforms.

Town Topics

Chief of Police James R. Bell, who has been on a visit to his father, W. A. Bell, in Henry county since last Sunday, returned here late yesterday and was at his duties at the courthouse this morning.

The colored voters of the city will hold a mass meeting at the West End church at 8:30 o'clock on Friday night beginning at 8:30 o'clock for the purpose of considering questions relative to the colored public school system.

Since the appearance of signs on lower Main street calling attention to motorists that they cannot park there, machines have a better access to this narrow portion of the street. The signs are from bridge to Chestnut street and between the points where the street is narrow. Much congestion to this time has occurred in this section but is now being eliminated. This is another step by traffic officers to better conditions in Danville.

Mayor Harry Wooding left this morning on a brief vacation and fishing trip. He left about ten o'clock with Mr. and Mrs. Overton Boatwright and Mr. and Mrs. C. F. Tucker by automobile for Richmond, from which city they will make there way to a point on Chesapeake Bay where the piscatorial venture will begin. Captain Wooding expects to be gone for two days and during his absence, Squire Griggs will preside at the police court.

Day Desk Sergeant Andrew Perkins has today issued 2,145 license strips to the owners of cars living in Danville, the largest registration of machines ever recorded in the city. The number, however, does not represent the exact number of Danville-owned machines as in a number of instances owners have lost their tags and have secured replacements.

The first inter-city golf tournament between Greensboro, Winston-Salem, N. C., and Danville, will be held at the Stokeland Golf links near Greensboro during the current season. Games will be played in each city as last year when Greensboro won two out of the three events.

Twelve men will be represented on each team. The Danville team which has been selected for the initial contest is as follows: E. R. James, John H. Schoonfield, Jr., J. D. Harrison, W. L. Robinson, John Boatwright, Allan McKinnon, S. C. Cunningham, W. W. Waddell, Eugene Knox, Dr. L. O. Crumpler, Dr. J. M. Robinson and A. F. Patton. The substitute players are Judge E. W. Brown and H. Y. Lea.

Members of the Garden Club are spending the day at Barnett's Pond as the guests of Mrs. Henry Vass.

Mrs. L. S. Wood has announced the wedding of her daughter, Miss Amber Clifton Wood, to H. J. Karker, clerk of the county, at Cape Charles, Virginia, on Tuesday, June 12, 1934.

The Riverside and Dan River Cotton Mills incorporated have abandoned for the time being the project of building one hundred additional dwellings for its employees in Schoolfield. Reason for postponement of this undertaking is the prevailing high cost of material. Further consideration will be given, it is learned, to the development plan when the costs have shown a downward tendency.

C. C. Travis has been appointed by the council welfare committee as the city pound master. Dogs whose owners refuse to pay the pound fee without licenses or tags will be taken to the pound. The fee levied is \$2 for each day that the dog is impounded. Under the local law dogs are kept for forty-eight hours and if they are not called for by the end of that time they are killed.

Lena Sampson Meade, a respected colored woman, died yesterday noon at the home of her brother, Edgar Sampson, on Second Avenue. The funeral will be from the residence Friday at 11 a. m.

The Kiwanis Club will hold their monthly meeting at 8:30 o'clock this evening at the Country Club. At this meeting reports will be submitted of the Atlanta meeting of the club. Kiwanians who will be heard will be Clarence Eldridge, Glenn Updike and Hugh Keelner.

James S. Neal and John A. Hawkins will leave Danville on train No. 26 this afternoon for St. Paul, Minnesota, where they will attend a delegation from the Danville and Greensboro chapters of the Travelers Protective Association.

Mr. and Mrs. M. O. Nelson are leaving on Saturday morning for St. Louis, Mo., where they will attend the International Rotary convention. Nelson recently was selected as the Danville Club representative. A special train of eight pullmans and a diner will be made up in Greensboro, especially for Kiwanians and the various delegations will be picked up on route.

Colonel H. H. Harlow, of Staunton, Va., Grand Master of the Independent Order of Odd Fellows of the State of Virginia, is a visitor in the city, and while here will take occasion to speak to the members of his order at the regular meeting of the Capital Lodge in their rooms tonight. Members of the Staunton and Dan River lodges are invited to be present to avoid them.

Good Morning Judge!

This morning's session of the Police court was presided over by Magistrate W. E. Griggs in the absence of Mayor Harry Wooding, who left this morning on a fishing trip on the James river near Richmond.

The picnic which was to have been held today by members of the Business and Professional Women's Club and which was to have been featured by the attendance of a large group of Martinsville club members has been postponed for a week. It had been planned for the Martinsville contingent to motor to Danville, arriving here about six o'clock and to go to some sequestered nearby point.

Scoutmaster Walter Waddill reported today that the bathing pool at the Community camp filled up in half an hour after the sluice gate to the dam recently constructed was closed. Rains had brought up the creek on the farm of A. D. Startling, near Pelham, and it took little time to convert the basin into a good sized pool. After the pond had filled, the sluice gate was opened and the pond drained in order to carry off some of the debris resulting from the clearing operations. The dam is reported to have stood up well under a pressure of 700 pounds to the square foot.

Killed Father and Attended Funeral

HIGH POINT, May 13.—While young men stood guard outside to prevent actuation of an alleged plot to kill him, crippled Clay Brown, who is charged with shooting and killing his father, Pink Brown, Monday, attempted to strangle his 18-year-old daughter, Clara Brown, sat through the funeral services this afternoon in the little house in Jamestown, N. C., in which the shooting took place and there was little change in the order of the compartment. The son sat with bowed head in the custody of Deputy Sheriff C. L. Gray, but beyond a noisy drooping of the shoulders, showed no emotion whatever. He came in Mr. Gray's car and left quietly with his escort while preparations were being made by the funeral party to move out of the cemetery to the interment place. He was again confined in the city jail.

The rumor that certain interested persons had planned to do away with his prisoner prompted Deputy Sheriff Gray to keep a close watch on the door prior to the beginning of services. These men remained on the alert throughout, but the men specified by the officer made no move to carry out their threat.

Clara Brown failed to bear the same calm which characterized her brother during the prayers and hymns and she became hysterical at the end of the service. She was carried from the house by relatives and friends while she sobbed bitterly. A new angle developed yesterday which may enter into the evidence being gathered for the trial of the crippled boy. The addition of the original story was told by close friends of the family who clustered about the door.

According to the new account, Denver Brown, younger brother of Clay, was unintentionally the direct cause of his father's death. When Brown had attacked his daughter as the result of charges she had made against him, Clay seized a pistol from a drawer and trained it on his father.

It had been his intention to inflict only a flesh wound in the leg and his finger was closing on the trigger when Denver saw the danger. In a flash the lad crashed the older boy's arm just before the weapon reached his father. The muzzle of the pistol was charged. The muzzle of the pistol was charged. The muzzle of the pistol was charged.

Clara, according to the story told by Deputy Sheriff Brown, had upbraided her father for a "wild" party which he had attended on Sunday in company with a crowd of young women of bad reputation. He took offense at her lecture and crashed her by the throat. It was at this point that the crippled boy took the pistol from the drawer.

Brown, it is said, had not enjoyed a good reputation in his neighborhood, having been suspected of complicity in recent drug peddling activities. He had been arrested several times on charges of selling narcotics, according to local officers. He is survived also by his widow, Mrs. Ella Brown, and two young daughters, Ella and Etta. The alleged murderer will be brought before W. G. Brown, justice of the peace tomorrow afternoon at 1:30 o'clock for a preliminary trial. At that time it will be decided whether or not he will be allowed until the trial he was a jury.

PROPOSE TRADE TREATY

(By Chicago Tribune Service.)
MELBOURNE, June 14.—Among the matters to be submitted to the federal parliament this session are a reciprocal trade treaty between Canada and Australia and a proposal for a shipping subsidy to encourage direct communications between Australia and the United States. A proposal for a shipping subsidy to encourage direct communications between Australia and the United States. A proposal for a shipping subsidy to encourage direct communications between Australia and the United States.

Nine Killed In Battle on Ship

Grandstand Gaff

Greensboro takes the lead. High Point still leads in the manufacture of furniture.

The premier way, after all, to boost the percentage is hitting. Nine of Danville's 10 runs yesterday were earned, clean and timely hitting being responsible.

The Athletics win another. Gradually Philadelphia and Cleveland, are cutting down the lead of the Yanks. The managerial brains of the Irishman with the abbreviated moniker and Tris the Texan, may eventually prove disastrous to the American League champs.

Certain Danville fans are wondering if Carr Smith let out his now familiar yell of disgust following his team's triples in yesterday's High Point-Raleigh game.

J. Worth Bacon, sport dooper for the High Point Enterprise, was credited with a clean hit Tuesday. He was married to Miss Lucile Thomas, a former Danville girl. Here's luck on the initial trip to the plate.

Eddie Regan's smile has re-appeared. A circuit clout and two putouts, based on the last two games might have engendered the humorous twinkle in his eyes.

Hunter, former Davidson College star who is said to have attracted the attention of TV Cobb, pilot of the Detroit Tigers, was tendered a rather rough reception into the Piedmont circuit yesterday. His debut included an even dozen hits and five bases piled behind his back. Could have been worse, Herb Murphy has a heart.

The British open championship tournament at Troon, Scotland, is the center of considerable attention. Americans can't just understand how Gene Sarazen and Jim Barnes were eliminated in the first and second rounds of the qualifying contest.

Stramalgia, a sparring partner, who butted Dempsey, inflicting a cut over the champion's eye, disappeared quickly from the Dempsey camp and is now working out under the same role with Gibbons. He might teach Tom the butting game.

McDonald Smith, of California, heretofore practically unheard of, has made a sensational showing at the Troon tourney, and now has many admirers.

Murphy and his men will return to Danville for two more games with the Twins on Friday and Saturday.

President Wants Flag Code Adopted

(By The Associated Press.)
WASHINGTON, June 14.—President Harding urged the American Legion flag conference opening here today to adopt a code of rules and regulations for the proper display of the flag and to include a provision that every American citizen should learn to sing the national anthem.

"While you are adopting a code whereby the citizenship of America may show due reverence to the flag," the president said in a address to the conference, "I would like to go a step further and insist on Americans being able to sing 'The Star Spangled Banner.' The President also said it should not be forgotten that American citizens have a patriotic obligation. 'To maintain in America unimpaired the things for which the flag stands.'"

Scarcely 150 persons attended the opening session of the conference and Mr. Harding in his brief address mentioned it. He added he was glad to speak because of a "consciousness that it is a group of working men." The president's address was followed by one by Samuel Gompers, president of the American Federation of Labor, who also advocated more widespread respect for the flag.

Pierce Oil Corp. Case Is Decided

(By The Associated Press.)
RICHMOND, June 14.—Preferred stockholders of the Pierce Oil Corporation won control of the affairs of that concern today when the Virginia Supreme Court affirmed the decision of a chancery court in this city and held the election of directors last fall by the common stockholders to be illegal. The decision of the court ended lengthy litigation in which the common and preferred stockholders sought for control of the corporation.

News from Belgium: Rail strike over there ended. May have been our annual rail strike they had.

Survivors Tell Story of Fight With Pistols and Axes on British Schooner

(By The Associated Press.)
NEW YORK, June 14.—The crew of four men and five Chinese passengers, missing from the two-masted British schooner *Edry Beatrice*, which was found off Sandy Hook last night, were killed in a battle of pistols and axes, according to stories told by the survivors to immigration officials when the craft was brought to quarantine today. Three of the fifteen Chinese survivors were taken to a hospital. The remainder were detained, pending investigation by the authorities.

U. S. PROPOSAL HAS BROUGHT NO REACTION

(By The Associated Press.)
WASHINGTON, June 14.—Informal negotiations on the American proposal for a reciprocal trade arrangement with the Maritime powers on the ship liquor and rum running problems of American prohibition enforcement have so far as could be learned today had brought no reaction from any of the powers. As yet, the probable attitude of the nine governments which have made the new liquor regulations the subject of diplomatic conversations there was no indication available either at the state department or at diplomatic circles here. Whatever the outcome of the negotiations it was clear that the American proposal offers little prospect of an early solution of the inconveniences occasioned for ships by the regulations applying to the Supreme court's ban against the transportation of beverage liquors in territorial waters. Senate ratification would be required of the treaties by which it is proposed to amend existing laws to remove both this restriction and that applying to intransit shipments of sealed liquor through American territory and unless called in special session the Senate will not reconvene until next December.

Olive Oil Shampoo Gives Soft Lustre To Dull, Dry Hair

To be beautiful, your hair must have lustre. Dull, dry hair simply detracts from the most charming face. Now specialists on hair beauty tell you to use a gentle shampoo of olive oil to have hair that is soft and glossy. They say that you must never wash your hair without olive oil. Do this and see new beauty come to dry, brittle hair. Get a bottle of PALMOLIVE SHAMPOO at any department or drug store. The most delightful of olive oil shampoos. Cleanses gently, and leaves the hair lovely, gleaming, soft and pliant as a baby's.

WEAK, RUN DOWN AND AILING

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Winston-Salem, N. C.—"I was weak and run-down and had trouble with my side. I had been taking medicine for a long time and nothing seemed to do me any good. My husband went to the drug store and he said to the clerk, 'I want the best medicine you have for women's troubles.' He gave him a bottle of Lydia E. Pinkham's Vegetable Compound and it has helped me. In a short time I was able to do my housework, and now I am not only able to do every bit of that and washing and ironing, but I help my husband at the store and feel good all the time."—Mrs. L. K. Myers, 1409 E. 14th St., Winston-Salem, N. C.

Keene, N. H.—"I was weak and run-down and had backache and all sorts of troubles which women have. I found great relief when taking Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. Am doing it. I can advertise it."—Mrs. A. F. HAKMOND, 72 Carpenter Street, Keene, N. H.

MASONIC CLUBS MEET IN BOSTON

(By The Associated Press.)
BOSTON, Mass., June 13.—Hearing the square and compass through flag-draped streets more than 10,000 members of Masonic Clubs and Eastern Star Chapters 25 lands and a score of floats, paraded today in the most colorful feature of the eighteenth annual convention of the National League of Masonic Clubs, being held here this week. The line of march was from the Public Garden, through the retail district, past City Hall where the procession was reviewed by Mayor Curley and to the state House where Governor Cox and fraternal dignitaries reviewed. Major General Clarence R. Edwards, retired, headed the parade as grand marshal.

AGREEMENT MAY BE REACHED AT NEAR EAST MEET

(By The Associated Press.)
LAUSANNE, June 13.—Alfred repudiated the treaty and said that the Turkish and allies seemed nearer an agreement both on the question of the Ottoman debt and concession. With regard to the debt, the Allies anticipated that Ismet Pasha would be satisfied with a moratorium, Turkey, on the other hand, insisted on the bond holders specifying the amount of annual interest charges. If the matter of concessions, Ismet will be asked to write a detailed letter to concession holders, affording protection to their interests and rearranging arbitration for the disputed conditions of reparation and prolongation of contracts.

LEGAL PAPERS SERVED ON WEALTHY MANUFACTURERS

(By Chicago Tribune Service.)
NEW YORK, June 13.—Unable to effect personal service upon Harold Grier, wealthy textile manufacturer of Montreal, Canada, in her suit for \$100,000 damages for alleged breach of promise to marry, Miss Dora Duby, a New York City girl, obtained an order today from Supreme Court Justice Lyndon permitting service of the papers in the action through the mails and by advertising in newspapers.

Miss Duby stated that Grier failed to keep his promise to wed her five months ago but had offered her \$1,000 as compensation for her disappointment.

Advices Against a State Monopoly Of Insurance

ATLANTA, Ga., June 13.—Insurance policies are the underlying bonds of the individual state and, for that reason, the studied effort which is being made in this country to break down insurance as a private enterprise and to make a state monopoly out of it is the most dangerous and insidious of all socialistic movements, the delegates to the National Association of Credit Men, were told today by Henry Swift, secretary of the Casualty Information Clearing House, of Chicago.

Mr. Swift's subject was insurance, credit and the state. Continuing he said: "The institutions of our representative democracy and the principle of private rights in property might weather, for a time, the government ownership of transportation and the so-called utilities, but they could not survive government ownership of insurance."

Power breeds power and it is only a short step from compensation funds to state life and fire insurance. Those who unthinkingly accept the socialist theory of why state companies should write compensation lines, cannot hold to it and at the same time logically oppose any other government insurance scheme.

"If we have many people there are in this country who know that today 16 American states are operating insurance companies for the writing of workmen's compensation business, and that two states, Wisconsin and Massachusetts, have experimented with life insurance? I venture to say that there are very few who realize the extent to which this socialization scheme has been carried."

"The states which are experimenting with the compensation lines are: California, Colorado, Idaho, Maryland, Michigan, Montana, Nevada, New York, North Dakota, Ohio, Oregon, Pennsylvania, Utah, Washington, West Virginia and Wyoming. The seven of these states actually prohibit private companies from writing this type of insurance and require all employers of labor, arbitrary and without option, to reply on the state funds for their protection. The states, which, by establishing a monopoly, admit their inability to compete on equal terms with those engaged in the insurance business are: Nevada, North Dakota, Ohio, Oregon, Washington, West Virginia and Wyoming. In 1921 the state companies in the nine states permitting competition only wrote 14.7 per cent. of the compensation coverage, although all of them official saving in rates."

This record ought to be ample proof that government ownership of insurance is just as inefficient, just as extravagant and just as bureaucratic as government ownership of any other business. The test of any commodity is its quality, not the price it is sold at. The evidence of the nine states seem to have decided this principle in buying their compensation insurance."

FRENCH WANTS MOTORS THAT WILL ECONOMIZE

PARIS, June 13.—France is 10 or 12 years behind the United States in automobile production, according to a conclusion of Andre Citroen, sometimes described as the Henry Ford of France, upon his return from America after making a comparative study of manufacturing in the two countries.

"In France," said M. Citroen, "we haven't mass production of automobiles yet because of the limited market. There are 12,000,000 cars in the United States, a very big market, whereas in France we have 300,000 cars, with say, 75,000 customers, each one of which buys a new car every three or four years."

"The chief difference in French and American cars," said M. Citroen, "is that of style. The French like a graceful, light machine, burning relatively little gas. The automobile is still something of a luxury with the average Frenchman. Consider, there are only 30,000 in a big place like Paris, of which 12,000 are private, 12,000 on hire and the rest trucks."

"I was amused," said M. Citroen, "at the reception given the two sets of cars I took with me. I thought my catrpillar car which made the trip over the Sahara would be regarded with curiosity. Not at all. It was my regular type car. The novelty of possessing a French car will appeal to Americans, I think. The everything is for novelty. Yesterday is a closed period for Americans, something to be forgotten."

FRANCE DENIES IT'S AT WAR

(By The Associated Press.)

PARIS, June 13.—France is not at war with Germany. This was the semi-official comment at the Foreign Office tonight when attention was called to suggestions said to have emanated from Berlin that an armistice or suspension of hostilities be concluded in the Ruhr. The feeling in official quarters is that the question hinges on the interpretation of the word "armistice." If Germany wants tranquility restored in the Ruhr, officials say, all she has to do is abandon her campaign of resistance.

The French point out that, although officialdom in Germany, headed by Chancellor Cuno, is refusing to end the passive resistance, there is such discussion of how it can eventually be accomplished. Meanwhile, they say, France is strong enough to await developments with equanimity.

LIQUOR AGENTS USE TERRORIST METHODS, CHARGE

(By The Associated Press.)

WASHINGTON, June 13.—A charge that prohibition officers in Ohio, have resorted to "terrorist" methods scarcely exceeded by the Communistic regime in Russia, was made in a statement issued tonight by W. H. Stanyon, head of the Association against the Prohibition Amendment.

The statement quoted from a letter written by Dwight Cusick a New Lexington lawyer declaring that in Perry county search warrants had been used improperly, householders had been mistreated at the least protest and those who showed dislike for prohibition had been imposed upon by the "tyranny of evidence and other ways."

Mr. Stanyon said a state examiner's report showed there had been much abuse of authority.

"In this fashion," the statement concluded, "darkest Ohio" in the grip of the Anti-Saloon proceeds to the extreme of the Communistic regime in darkest Russia."

CHRISTIAN GENERAL POWER BEHIND PLOT

(By The Associated Press.)

PEKING, June 13.—China's "Christian general" Feng-Yu Hsiang, was the active military power behind the plot which today forced President Li Yuan-Hung out of office and sent him in flight to Tien Tsin.

General Feng with Wang Huai-Ching, head of the metropolitan police force of Peking, yesterday handed their resignations to President Li, declaring they no longer could hold office while their troops and patrolmen were unpaid.

President Li countered with a request that they withdraw their resignations. When Feng saw that Li was determined to hold the post, he issued a statement that unless Li vacated, Feng's troops would enter the capital. Then followed Li's flight to Tien Tsin.

In the light of above and other recent dispatches from Peking, three military leaders, developing the Chinese capital. They are Feng Yu-Hsiang, the "Christian general," Wang Huai-Ching, head of the Peking district police, and Tiao Kun, head of the Chihli Party. A notable ally of the military power is Wu Pei-Fu, former premier and military sponsor of President Li Yuan-Hung's fallen cabinet.

Feng, military inspector of the Peking metropolitan area, has made his mark in the recent history of China in three different directions. China in the past for the Christian religion has stamped all his activities with its impress, while his administrative ability and military efficiency have been conspicuous features of his record. It was his army, said he perhaps the best trained corps in China, that carried Wu Pei-Fu to victory last year against Chang Tiao Lin and forced Chang to retire to his Manchurian stronghold. A few months ago, however, differences were reported between Wu and Feng and the latter became chief of the Peking military district.

What was left of the headless Chinese government held a session this afternoon. The gathering was attended by the members of the cabinet, who will endeavor to function in the absence of a president, vice president and premier until somebody is chosen to fill the vacant executive post.

The cabinet, headed by its Premier Chang Shao-Tseng, handed its resignations in bloc to President Li Yuan-Hung some time ago, but the president refused to accept them. Later Premier Chang retired to Lien Tsin and refused to resume office. Today President Li followed him with the threat of armed action by the militarists ringing in his ears.

FRENCH SUPPORT IS UNWAVERING

(By Chicago Tribune Service)

BRUSSELS, June 13.—Belgium in unswerving in her support of France, and her efforts to secure allied unity should not be interpreted as faltering in the least degree. Foreign Minister Jaspar declared in the Belgian Chamber of Deputies today.

SKY IS LIMIT

(By Chicago Tribune Service)

LONG BEACH, N. Y., June 13.—"The sky is the limit," as long as you have the money, is the motto of the Long Beach resort town today.

Police Captain Barriscale, burly and good natured, laid down the law today with gentle irony: "We aren't going to allow would-be Annette Kellermans or any buny-hugging on the beach," he said.

"Couples will have to keep six inches apart and it won't matter whether they've been married five minutes or five years."

OPTIMIST CLUBS WILL HOLD CONVENTION

(By The Associated Press)

CHATTANOOGA, TENN., June 13.—The convention of International Optimist Clubs will open a two-day session here tomorrow and delegates from all parts of the country were arriving in the city today and tonight.

The executive committee met this afternoon with President Jack Smith of San Francisco and discussed matters to be brought before the convention tomorrow. Among those on the program for addresses is Justice Brandeis of the Supreme Court.

Miss Marygrove, lady of Hall, and Miss Loretta McCormick of St. Louis, will be the guests of honor at the convention.

Public Fund to Open Colleges To all Needed In Every City

(Special to The Bee)

CAMBRIDGE, Mass., June 14.—A community fund to send to college every boy and girl who wants a college education is proposed by Mrs. Bernice Brown, new dean of Radcliffe College.

MISS BERNICE BROWN, NEW DEAN OF RADCLIFFE COLLEGE.

"Especially the latter. This type of modern girl deserves some censure, but not all that has been heaped upon her. A woman may be a thorough woman, gentle, sympathetic, kind and maternal and still be original, independent and forward looking. The modern girl should be taught not only to take her place in the home, but in the business and political world."

DRASTIC FEDERAL LAW NEEDED FOR CONTROL OF FIRE ARMS

NEW YORK, June 13.—Drastic federal laws for 1922 control of fire arms as a means of checking the steadily growing homicide rate, was urged by "The Spectator" in an insurance periodical today, in making public homicide statistics for 1922 which showed a slaying rate in 28 of the largest cities of nine per cent of the population.

"The record since 1900," said the review, "reflects an attitude of lawlessness and indifference to human life without parallel in the history of the world."

First, the excessive proportion of criminals who go entirely unpunished or proportionate to the seriousness of their offense, second, the large majority of murders committed by shooting, as the result of the ease with which a revolver can be obtained.

Presenting statistics of the federal census bureau, which show that nearly five out of every 7 murders in the last twelve years were committed with firearms, the review said:

"While a beginning has been made in some states to control firearms there is probably no alternative than Congressional action of meeting the murder problem."

Capital punishment, the review concludes, is not a sufficient deterrent of homicide crimes to justify its continuance and should be abolished "as a relic of barbarism."

Against 336 deaths from murder in 1921, there were 331 in 1922, the review said, which showed Memphis Tenn., as heading the homicide list with 67.4 per cent of the population.

Spokane, Wash., was at the other end of the list with 1 per cent of the population. Nashville, Tenn., had the second highest rate, 30.7. New Orleans was third with 21 and St. Louis fourth with 19.2.

Other cities with "excessive" rates were given as: Cincinnati, Ohio, 14.6; Louisville, 13.1; Los Angeles, 12.9; Chicago, 11.8; Dayton, Ohio, 11.7; Washington, D. C., 11.5; Cleveland, 10.7; and Baltimore, 10.2.

Cities with low rates included Milwaukee 2.8, Boston 3.5; Seattle, Wash., 3.4 and Minneapolis 3.3.

"On account of a few exceptional outstanding cases," said the review, "the New York City murder record is always more or less in the limelight, although the New York rate of 5.8, is much below the national average."

Russell Johnson Tells of Remarkable Experience.

Russell E. Johnson, popular government employee, Office Chief of Infantry, Munitions building, Washington, D. C., is another who has found the Tanlac treatment successful in overcoming stomach trouble. He says: "For a long time I had indigestion so bad I had to confine myself to a strict diet. The foods I liked best hurt me worst, and if I ventured to depart from my diet I suffered terrible distress. A heavy lump, like lead, seemed to form in the pit of my stomach, and many times I was unable to obtain my meals. I became underweight and got to where I couldn't sleep well."

"Within a week after starting on Tanlac I noticed a marked improvement and within two months my trouble had entirely disappeared. Since then I've been eating just anything I want, relish all my meals, and have gained nearly ten pounds in weight. I consider Tanlac indispensable."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—adv.

Tints, Whites, Flush, Brunette

Knuckle Down, Mr. Mayor

Mayor Cryer of Los Angeles says he is in perfect condition for his coming "battle" with Mayor Bacon of San Diego, for the marble championship of southern California. There is much excitement in the two coast cities.

LANIER WINS SHOOT

(By The Associated Press)

ATLANTA, Ga., June 13.—W. H. Lanier, Jr., of Augusta, Ga., won the southern zone amateur handicap shoot championship here late today with a score of 18 out of 100 targets.

The preparations already have reached great proportions, and war would have broken out two months ago if the French had not occupied the Ruhr, where the hostilities would have been first directed, the article declares.

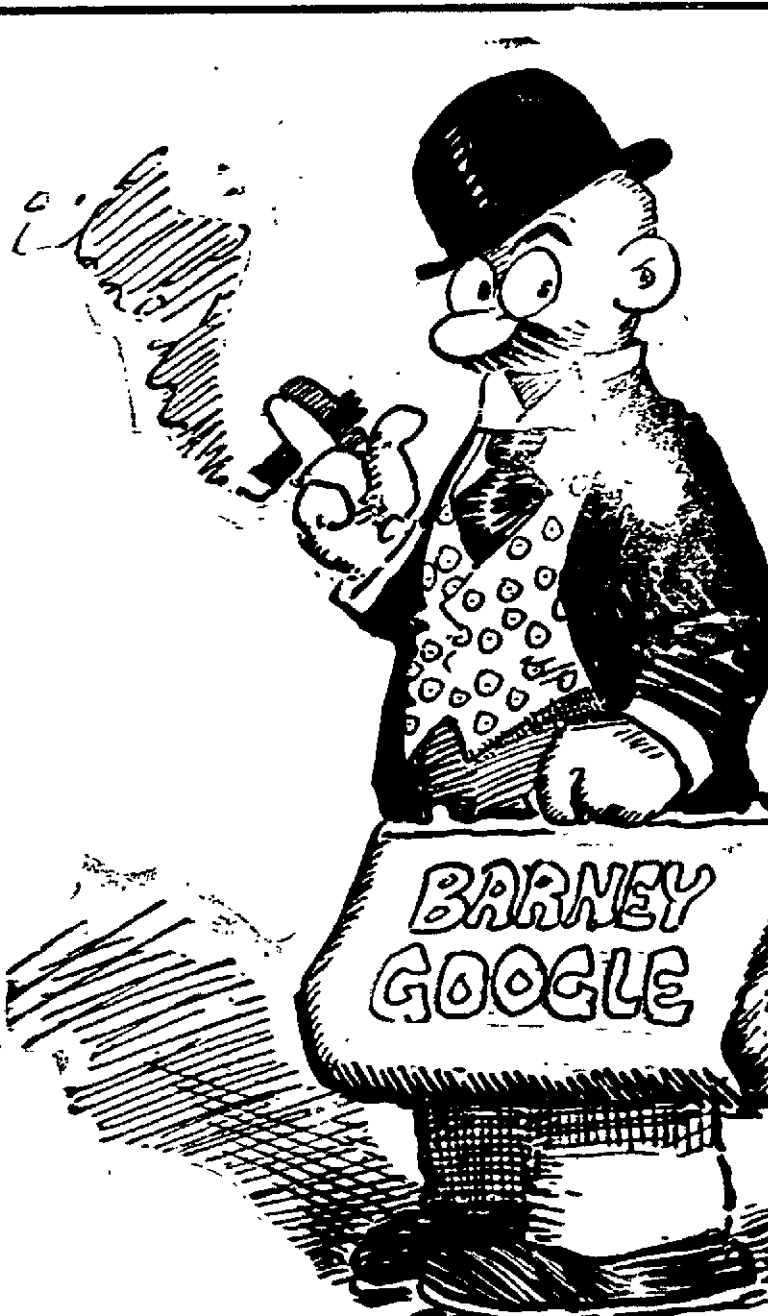

The British government is anxious to a commensurate the American views and secure a satisfactory solution for the British shipping interests but difficulties are foreseen in adopting the Washington suggestion in its entirety, as extension of the three mile limit would introduce complications concerning estuaries and other difficult points.

In any case, no reply will be made to Washington pending careful study of the suggestion by the British government experts. Briefly it may be said that the government is prepared to bargain with the United States if any method can be found of overcoming the rigidity of the Supreme Court ruling.

GERMANY PLOTS TROUBLE (By Chicago Tribune Service)

PARIS, June 13.—Germany is secretly and methodically preparing an armed uprising against the French, Premier Poincare published in the Action Francaise today in an article signed by Leon Daudet, chief director.

The preparations already have reached great proportions, and war would have broken out two months ago if the French had not occupied the Ruhr, where the hostilities would have been first directed, the article declares.

88 Golfers Fighting For British Championship

Gibbons Needs More Beef To Let Loose On

(By Chicago Tribune Service.)
SHELEBY, Mont., June 14.—More beef is the crying need in the training camp of Tom Gibbons who is preparing to battle Jack Dempsey here July 4th.

Gibbons has reached that stage in his training where he should be cutting loose with his right if he is to bring home the championship.

Bud Gorman, the 220-pounder, is the only fellow he has to work with on which he can let them go.

His other sparring partners are smaller so naturally Gibbons is forced to drag to keep from putting them out of the batter's box.

Tillie Herman, the fast walter, is giving Gibbons a lot of speed. Herman has boxed Dempsey many times and handles a good many punches the same way that the champion does.

This will give the St. Paul contender an excellent chance to study the big fellows methods as relayed to him from the flashy Tillie kid.

Gibbons worked eight rounds again yesterday afternoon at a good-sized gallery of admirers and he was primed to give them a first-class exhibition.

He took on Herman for the take off. Gibbons gave a clever exhibition of slipping punches and shifting, using his left as a feint and then bringing over his right either to the jaw or the stomach pit.

Gorman then took the floor for the next two rounds. The Racine, Wis. boxer absorbed plenty but he gives Gibbons a chance to sock, which critics believe should be the keynote of his training.

Rocco Stamatella was out the first punch Gibbons let go. He was unable to give the contender much of a work out. The second round was cut short when Gibbons laid a right to the stomach and Rocco collapsed.

Dan Dorsey the Coleridge middleweight, failed to give Gibbons much excitement in his two rounds.

Helen, Tom's wife, made her appearance at the camp yesterday for the first time. She sat back in the shade of the fence some distance from the ring where she couldn't see the close up battling.

"This is the first time I have ever watched Tom box to any extent," she said.

"No, I don't intend to see the big battle July 4."

"I just want to be near him so he won't have to worry over his family while he is training."

"So far, I'm not worrying any but I expect as the time draws closer, I will get a little nervous."

"Of course, the Gibbons family believes he is going to win. We have waited a long time for a chance to fight for the title and leaving nothing undone to get Tom ready for it."

The two children, little Tom and Jack, played around the ring where their father was boxing.

Word was passed at headquarters today that Mike Collins was leaving St. Paul tomorrow with Jimmy Delaney, the Twin City 150-pounder who recently fought toe and toe with Gene Tunney.

With the addition of Delaney to the Gibbons sparring partner list, he is the kind of a fighter Gibbons needs.

Gibbons' stock is booming here. Fred Pilling, rodeo promoter here, offered to give Tom a thousand acres of ground divided into town lots against its equivalent in cash at even money that Tom will be the next champion.

Road work for the challenger was varied this morning, when Gibbons went to the range. The party bagged a dozen. Gibbons extended his legs by chasing jack rabbits.

McLIGUE-MADE BIG OFFER FOR RETURN WATCH

(By The Associated Press.)
NEW YORK, June 13.—An offer of 20,000 pounds to Mike McGigue, world's light-heavyweight boxing champion for a return match with Battling Siki in Dublin on September 7, was made today by Irish interests, according to Joe Jacobs, the titleholder's manager. Jacobs deferred his decision, but indicated he would accept.

McGigue wrestled the 175 pound crown from Siki on points in a 20-round bout at Dublin last St. Patrick's Day.

WEATHER.
Virginia: Fair and warmer
Thursday; Friday fair.

And Bang Went Old Record!

Here's Great Heart, 8-year-old thoroughbred owned by Mrs. Stuyvesant Peabody of Illinois. In a Chicago suburb, clearing the hurdle at 8 feet 13-16 inches. In doing that he smashed the 8 feet 1-2 inch record made 20 years ago by Confidence at Coburg, Ont. Fred Vepey is Great Heart's rider.

AIRPLANE GOLF MATCH STAGED TO OPEN LINKS

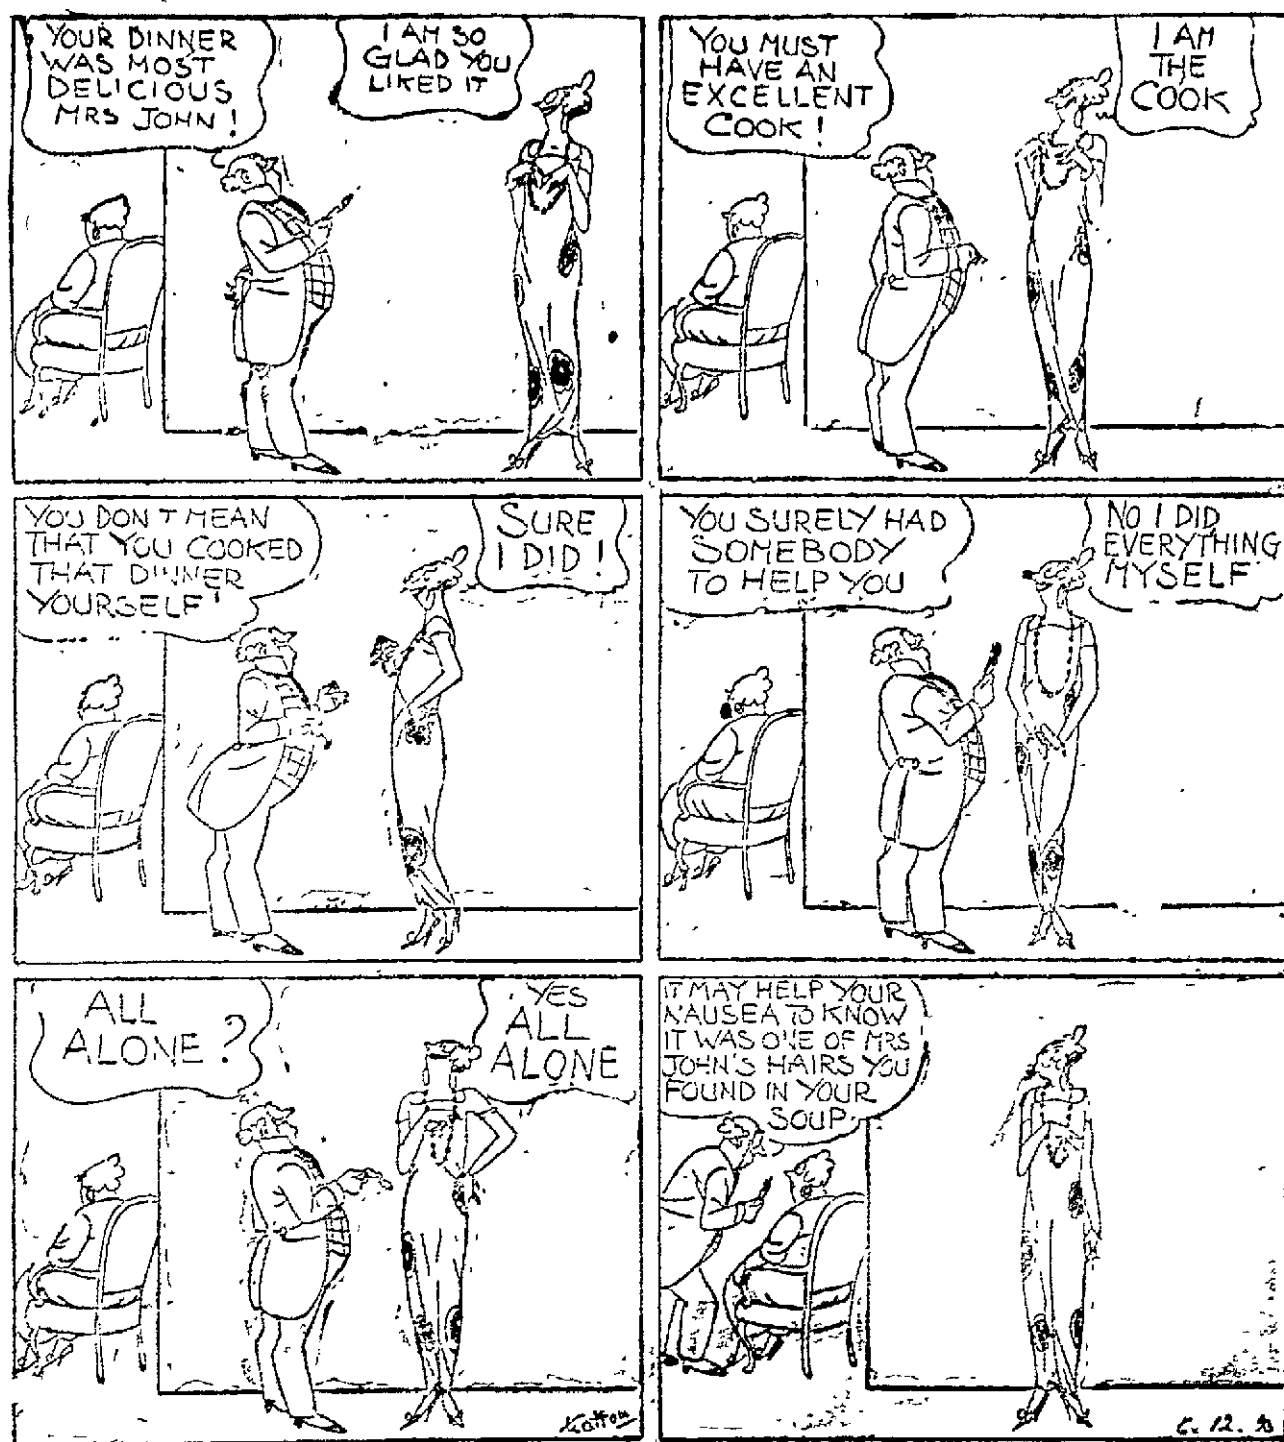

(By The Associated Press.)
CHICAGO, June 13.—An airplane golf match is to be staged soon by the Olympia Country Club in celebration of the opening of its fourth 18 hole links, making it the largest golf club in the world. The contest, which will be played by two amateur members of the club, assisted by nine professionals on one side and nine professionals on the other, is the first event of its kind.

J. M. Akers will pilot the plane for the professionals and drop balls to which is attached a white ribbon as far as possible to each of nine putting greens, while J. M. Curran, the other air golfer, will drop 7-8 balls for his team of amateurs. The players will then hole out from the spot where the marker pellets fall. The visitors will not be allowed to drop the ball more than 300 feet. As there are many trees on the course, the players become thrilling in case the flyers drop the ball in an untoward spot. The date for the contest which will be nine holes, will be set as soon as the two teams have been selected.

TEST SUIT IS FILED AGAINST RICHMOND

RICHMOND, Va., June 13.—Trial of the \$350,000 suit of the Richmond, Fredericksburg and Potomac Railroad against the city of Richmond is set for next Monday in the Law and Equity Court. The action is to recover money which the railroad claims to be due by the city as its share of the expense of lowering the Belt Line tracks.

CUTSHAW "DONE," SAID CRITICS, BUT HE SHOWS 'E MUP

DETROIT, June 13.—"Old Ironsides" they call him. And that's just what George Cutshaw of the Detroit Tigers is.

For when the going is the toughest and crucial moments in the game arrive, it's good old "Cut" who steadies his mates and prevents them from faltering in the pinch. Situations means nothing to the veteran. In fact, he just does as them.

When Cutshaw came to the Tigers from the Pittsburgh Pirates in 1922, he came with an "all through" label attached. The wisecracks figured he was "done," all ready for the trash heap. But Cutshaw, by playing a top notch game for the Cobblers all season, proved opinion in general was way wrong.

This year, Detroit obtained Derrell Pratt to use at the keyhole cushion, apparently as a strengthening measure. And "Cut" was to be kept in the main as a coach for the youngsters. But Cutshaw has been in there a great deal of the time showing his same old stellar brand of ball.

High Point Loses; In Second Place

RALEIGH, June 13.—High Point dropped from first to second place by losing to Raleigh here today 9 to 3.

Lowry and Lee both fell before the onslaught of the Capitals, while Riel held the Furniture Makers in check with eight scattered hits, four of which were contributed by Irby. Riel worked eight men for strikeouts, double the number stopped at the plate by the two opposing mounds-men.

Six of Raleigh's 13 hits were for three base hits each, three coming from the stick of Carl Smith. Each of Smith's trips, coming in the first, fourth and eighth, figured in the scoring.

How Raleigh knocked the Pointers off the top:

	AB.	R.	H.	P.	O.	A.	E.

National League

CINCINNATI 4; NEW YORK 3
(By The Associated Press.)
CINCINNATI, O., June 13.—McQuillan was knocked out of the box by the Reds in the third inning today and the local team won from the champion Giants 4 to 3. Ryan allowed only one hit during the balance of the game but Donohue was very effective and held the champions safe after the fourth inning, in spite of ragged support. Catchers by Burns and Young in right field and the general play of Frisch at second were features. It was the sixth straight victory for the Reds, who have not yet lost a game to any eastern club on the home grounds.

Score by innings:
R.H.E.
New York 002 000 000—3 9 1
Cincinnati 022 000 000—4 7 4
McQuillan, Ryan and Synder, Donohue and Wingo.

PITTSBURGH 4; PHILADELPHIA 2
(By The Associated Press.)
PITTSBURGH, June 13.—"Red" Russell's home run drive in the eighth inning off the Reds who had doubled, on second base, won today's game for Pittsburgh over Philadelphia. The score was 4 to 2.

Score by innings:
R.H.E.
Philadelphia 100 010 000—2 10 1
Pittsburgh 000 011 020—4 11 2
Behan and Henline; Morrison and Gooch.

BOSTON 3; ST. LOUIS 2
(By The Associated Press.)
ST. LOUIS, June 13.—Aided by the return of Hornsby who has been out of the line since May 24, with an injured knee, the Cardinals today defeated Boston, 3 to 2. Singles by Fleck, Hornsby and Bottomley in the ninth gave the Cardinals the winning run. Hornsby got two doubles and a single out of five trips to the plate and scored on the fifth.

Score by innings:
R.H.E.
Boston 000 010 010—2 7 2
St. Louis 011 000 001—3 10 1
Oeschter and O'Neal; Toney and Ainsmith.

BROOKLYN 8; CHICAGO 4
(By The Associated Press.)
CHICAGO, June 13.—A seventh inning rally in which Brooklyn pounded in five hits and scored five runs, enabled them to defeat Chicago 8 to 4 today. As a result the Cubs' winning streak was broken after seven consecutive victories. Dickerson was driven off the mound by Chicago in the fifth inning but Cadore and Decatur prevented further scoring.

Score by innings:
R.H.E.
Brooklyn 120 000 500—8 11 2
Chicago 000 020 000—4 9 1
Lickerman, Cadore, Decatur and Taylor, Osborne, Stuchland and O'Farrell.

TEX RICKARD TO BUILD ARENA
(By The Associated Press.)
NEW YORK, June 13.—Plans for a monster open air arena, with a seating capacity of 75,000 for boxing, football and athletic events, were announced today by Tex Rickard, boxing promoter. The site for the new arena, already has been selected, he said, and it is to be built in Jersey City where the Dempsey-Carpentier fight was staged two years ago.

Invitations have been sent to several large colleges, Rickard said, for the staging of their football games in the new arena and for their large track and field events.

Kinks-o' the Links

Player in driving from the tee, addresses ball and then starts his swing. He has brought the club back and started his downward swing when the ball starts to roll from the sand on which the player has teed it. If the player completes his swing, but does not hit the ball at all, due largely to the fact that the position of same had been changed when it rolled off the sand tee, is he charged with a stroke? Now for another similar situation. Suppose the ball starts to move as the club almost reaches it, and the player completes the swing, striking the ball while it is moving and is able to get off a long ball, is there any penalty for hitting the ball while it is moving?

If the player completes his swing at the ball and misses it because it has rolled from the tee, he is charged with a stroke. The fact that the player completed his swing, puts the ball in play and prevents him from lifting the ball and teeing it again. The ball must be treated as if driven from the tee. In the other case where the player strikes the ball as it is rolling from the sand tee, the stroke counts and there is no penalty for hitting the ball while it is in motion.

In match play what is the proper manner of deciding the winner if at the end of 18 holes, the number agreed on by the two players, the match is "all even." How is a tie for first place settled in a medal round?

In match play, if it is "all even" at the end of the number of holes agreed on, you play on hole by hole until one wins a hole. That immediately decides the match. In a medal round, if two players tie for first place, they must play the entire round again, at a time agreed on by those in charge of the tournament.

YE OLD KEYSTONE TEAM WORK HAS NEARLY PASSED

What has become of the famous keystone combinations of yesterday? Where are the sensational second base-shortstop pairs that blazed across the baseball horizon in seasons past?

Where are men like Ferris and Parent, Collins and Barry, Evers and Tinker, Richie and Wagner, Schaefer and O'Leary and Bridwell and Doyle and so on down the line? Chaps, whose scintillating performances around the middle cushion were known to ballroom in bygone years.

Apparently most of their type are now passe. At last that appears to be the answer. For all things considered, there are really only two second base combinations in the major leagues this season which can even begin to compare with those of the past.

In Jimmy Dykes and "Chick" Galloway, the Athletics have one of them while the Giants with Frankie Frisch and Dave Bancroft possess two duos lead their respective circuits. At least their work to date entitles them to top honors.

Of course there are other "doubles" in the main show which are a credit to the pastime. For instance, McManus and Gerber of the Browns, Collins and Johnson of the White Sox and Leekpaugh and Harris of the Nationals. But none of them is in the same class as those tolling for "Mac and Mack."

For some reason or other there seems to be a lack of real class material around the keystone box now when compared with other days. Explain it if you can.

GRIMES' CONDITION BETTER
(By Chicago Tribune Service.)
CHICAGO, June 14.—The condition of Ray Grimes, first sacker of the Cubs, who was operated on for hernia at the Henrotin Hospital last Tuesday, was reported as greatly improved today.

SHOOT HOLD UP MEN
(By Chicago Tribune Service.)
MEXICO CITY, June 13.—The War Department is following the tactics of Porfirio Diaz in handling the Indians who held up the Jalapa-Puebla train several days ago. Senor Diaz stopped train wrecking by issuing orders to shoot without trial all those participating in hold ups. It is reported this afternoon that twelve participants in the recent hold up were captured and shot.

When Floggers Got Through

This is what a band of "White Knight" whippers, subscribing themselves "Ex-Service Men," did to Frank Sanceri, 21, out in Hollywood, Calif. They based their act on police charges that Sanceri had participated in a mob assault on a 13-year-old girl. Sanceri is being held in \$400 bail.

AUCTION SALE.

AUCTION

I will sell to highest bidder Friday, June 15, 1923, at 10.30 a. m. at J. T. Helms' Stables, No. Union St., two fine cows, taken as the property of Sam Harvey to satisfy execution in my hand.

COMMISSIONER'S SALE OF UNION STREET PROPERTY, DANVILLE, VIRGINIA.

In execution of a decree of the Corporation Court of Danville, Virginia, entered at the May, 1923 term thereof in the chancery cause of Nora Surgeon Gdn'a vs Elhona Johnston, vs Robert Johnston and other, I shall, as special commissioner, appointed by said court, offer for sale at Public Auction, on the premises, No. 529 Union street, Danville, Virginia, on Wednesday, June 27, 1923, at 4 o'clock p. m., that parcel of land with the improvements thereon of which James Johnston died seized and possessed, and described as follows:

Beginning at the corner of Lot No. 2 on Union street; thence south 47 degrees, L. 150 feet to corner with lot No. 3, thence N 70 degrees, E 30 feet to G. Banister's lot, thence with his lot 47 degrees West 150 feet to Union street, thence with Union Street 30 feet to the beginning. The property is directly in front of the Cemen Bridge.

Terms: One-Third Cash, remainder on a credit of six twelve and eighteen months, credit installments to be evidenced by notes of purchase, with six per cent. interest from day of sale and added. Title retained as security for said notes till whole of purchase price is paid and conveyed directed by the court.

J. C. CARTER,
Special Commissioner
R. M. FOSTER, Auctioneer.

In the Clerk's Office of the Corporation Court of Danville, Va.:
I, Otis Bradley, Clerk of said Court do hereby certify that the bond required of the Special Commissioner by the decree entered in said cause has been duly given.

OTIS BRADLEY,
Clerk.

REMOVAL SALE

We expect to move into our new quarters in the Masonic Temple within the next few weeks and in order to reduce our stock before moving we want to clean up our entire stock of Men's Furnishings and Ready-made suits.

Beginning Saturday, June 16

We will close out at cost more than 200 New Spring and Summer Styles in Men's and Young Men's Nobby Suits and our entire stock of furnishings—Collars, Ties and Shirts. This offers you a wonderful opportunity to secure a new suit at a great reduction in price. Come and look them over.

SPRING AND SUMMER SUITS

To Be Closed Out.

We have about 200 New Suits for Men and Young Men, latest nobby styles, which will be closed out at Cost, as we do not expect to handle these in our new location. Get your Suit from this lot. All alterations at cost.

MEN'S FURNISHINGS

We will discontinue our line of furnishings when we move and we will close out the entire lot at and below cost. This stock consists of high-class Shirts, all new materials and patterns, collars and ties in great variety. Come and buy them by the box. Here's your opportunity to save money on strictly high-grade fresh material.

INDIVIDUAL TAILORING

Don't forget that we are in the Tailoring Business and during this clean up sale we want to continue taking measures for suits—Made the way you want them from the best and most stylish of Spring and Summer Patterns—both domestic and Imported.

We do only high-class tailoring, catering to those who want good clothes that have style, fit, and wearing qualities included in the general make-up. When you consider the quality and workmanship of our suits you can realize that they are really cheaper in the long run.

Quick work on the part of railway employees saved the lives of nearly 200 passengers in sleeping cars when fire broke out in Philadelphia's Broad Street Station train shed at one o'clock in the morning. After a long fight the fire was subdued, but not until the lofty arched, glass-covered shed was in ruins and \$2,000,000 damage had been done.
